Medical assistance

Medical assistance for Spanish students

Spanish Social Security

To obtain the health card, it is necessary to be registered and affiliated to the Social Security:

You should go to the **Health Center** closest to your home to request a family doctor.

There you will have to fill in the corresponding form and submit it::

- ▶ Copy and original of the **Social Security affiliation** card.
- ▶ **Certificate of census registration** (It must be original and when requesting it you must indicate the reason for which you are requesting it, so that it appears in the certificate itself).
- ▶ **An official identity document** (passport, residence card, student card, etc.)

Medical assistance for EU students

European Health. Insurance card

If you are a **resident of a European Union country**, you must apply for a European Health Insurance Card (EHIC) to have medical care covered during your stay.

The application is made at the health insurance organization where you are insured, prior to your arrival in Spain. You will receive your European Health Insurance Card **within two to three weeks** of your application.

The European Health Insurance Card guarantees you medical coverage for up to three months.

The TSE has the following limitations:

- ▶ It is not an alternative to travel insurance.
- ▶ It does not cover private health care or expenses such as the return flight to the country of origin.
- ▶ It does not guarantee free medical services.

Medical assistance for non-EU students

Taking out private health insurance

If you reside in a **non-EU country**, you must take out **private health insurance** to obtain your student visa.

Perhaps your country has **a health agreement with Spain**: in this case you will have access to health care as a Spanish citizen would, but in any case it will only cover basic health care and only emergency expenses.
